

TECHNICAL DATA SHEET

DucoBox Focus

The DucoBox Focus is a compact, durable and extremely energy-efficient extractor unit with an integrated control valve system that relies on CO₂ and humidity measurements, developed for use in Duco's Demand-driven Natural Ventilation Systems (DDNVS) which extracts moist and/or stale air zonally as required and at the correct rate.

The DucoBox Focus uses just one PCB for both control and operating electronic systems. Simple design and an efficient DC motor ensure long service life.

Physical characteristics

Part number	4252
Optional accessories	4182 (Silent Plus Kit)
Extraction capacity at 150 Pa	400 m ³ /h
Width x Height x Depth (mm)	480 x 480 x 194
Weight	4.3 kg
Colours	Green with white cover
Communication	Duco RF Duco Wired Switch Sensor (volt-free input) Control valves Extendable with Communication Print (0000-4251)
Power cable length	1,5 m (approximately 1 m on the outside of the DucoBox)

Electric specifications

Unom	230 VAC – 50 Hz	Inom	0.65 A
Pmax	84 W	Cos	0.55
